Class Exercise 2	**Due: See Léa**
Worth 5%	**Late Assignments are not accepted**

Objective

Replicate the given example using HTML and CSS

The Task

- Allow content of the page to only take 50% of the width of the page.

- Image should be 150 pixels wide and float on the right (`float:right;`).

- The title should be a heading that is centered and orange.

- The paragraph of text should align its text to the right.

- The large rectangle should have a background color that is green, text that is white and a padding of 10 pixel on all sides.

Sample Result

Deliverables

Create a zip file name ex2.zip containing your ex2.html file.

Submit your ex2.zip file to the Class Exercise 2 drop box in the Assignments section on Léa
